

## *Religious Themed Concealed Solutions*

Valmont Larson offers a full line of religious themed concealed solutions. As with most of our concealment structures, the ability to adapt is part of what we do best. Jurisdictional design challenges can be met with a simple, reliable religious themed products. Our RF-friendly materials are tested in a laboratory and in the field.

- All products custom designed and built.
- Detailed graphics, wraps, and RF friendly signage capabilities are available.
- Projects are made from RF-transparent, fiberglass reinforced plastic (FRP).
- Projects can be painted and finished to customer specifications.
- Common textures include brick, stucco, wood, concrete block, and others.
- Molds can be taken onsite or sculpted
- Cost effective conventional materials can be incorporated in non-RF areas with minimal visual impact.

### *Types of Concealment*

- STEEPLES
- CROSSES
- ARCHITECTURAL DESIGNS
- BELL TOWERS
